The year 2023 marks the one-hundredth anniversary of the making and release of Richard Norman's film *Regeneration*. The Norman Studios Silent Film Museum, Inc., is proud to celebrate this anniversary with the opening of Phase 1 of the Norman Studios Silent Film Museum, which features a special exhibit of items related to *Regeneration*.

Exhibited for the first time are Richard Norman's desk, table, filing cabinet, and chairs. Also new to the Studios are *Regeneration* posters, lobby cards, pressbook, and photographs related to *Regeneration* that are shown in the exhibit. The ship's wheel and a model of the boat used in *Regeneration* are featured. Selected intertitles from the film are displayed as are the photoplay by Richard Norman and Norman's ledger book detailing the receipts from the showing of the movie, both of these items being shown to the public for the first time.

Event highlights are an introduction by Jacqueline Stewart, President of the Academy of Motion Pictures Arts and Sciences Museum and TCM Host of Silent Sunday Nights, as well as remarks by members of the Norman family and local dignitaries.
